In-person training

■ **What is coaching?**

Coaching is a collaborative and reflective process that helps you see yourself and your situation more clearly. It's not about giving advice, but about creating the space, challenge and support for deeper self-awareness and meaningful growth. Through powerful questions and honest dialogue, a coach helps you uncover patterns, clarify values and make more intentional choices. Coaching can focus on leadership, career, wellbeing or life as a whole—wherever you want to create change. It builds confidence, clarity and accountability, turning awareness into purposeful action. Ultimately, coaching empowers you to move forward with greater alignment, resilience and authenticity.

If you are successful in gaining a place on the training programme, you will be able to apply for 3 x 1 hour coaching sessions.
